

Medical exam facilities and approval process

All medical providers, whether major medical centers or individual physicians, must be pre-approved by Manulife Bermuda. The Distributor should ensure that the facility is able to perform all of our medical requirements and tests. Once this has been established, submit the name of the facility to Underwriting for our further review of accreditation, technology capability and overall standards.

If you would like us to review a facility not listed below, please provide a link to the facility website. If you are looking for approval for an individual physician, please provide his/her Curriculum Vitae.

The following list identifies medical facilities that have been approved by Manulife Bermuda and are actively in use. Most have active websites for contact information. Please see “Important Note,” page 6.

Important note

The list of approved facilities is not all inclusive, and we are open to reviewing other facilities should you want to use one in countries that do not have a previously approved medical facility listed. [Click here](#) for a helpful resource to assist you in locating possible accredited facilities if you need a facility other than what is listed. Please remember that facilities must be able to complete all requirements in English, as noted in the Manulife Bermuda Underwriting Guide.
